So who all is using Slack at their campus? Right now, UCM IT has been using it for our student employees for nearly a year - it's been great. For our staff employees, we started a pilot a few months back. (I'm assuming that's what this channel is about, let me know if I'm assuming too much)

**rchadwick-ucsd** 3:23 PM  
Heh, I created it more for the Slack presentation that I'm giving on Monday, but that doesn't have to be its only focus  
@rpeters3-ucmerced: we've been using it for about a year and a half at Scripps IT (Part of UCSD)

**rpeters3-ucmerced** 3:24 PM  
Oh! When's your presentation?

**rchadwick-ucsd** 3:24 PM  
11:15  
Right before lunch, so everyone will be hungry!

**rpeters3-ucmerced** 3:25 PM  
I am very interested in hearing about Slack at other campuses, so I should be there.

**rchadwick-ucsd** 3:25 PM  
Cool, I'll see you there, then!

**euraszuwalski-ucsb** 4:37 PM  
UCSB - College of Letters and Science IT - GauchoSpace (Moodle) Support has been using it for about two years. We love it. We also just started testing it for College of Letters and Science IT for all office.
